**STATEMENT OF PRINCIPAL** Buyers bid with confidence at our auctions. They know at no time whatsoever will they be in the position to have to bid against the auctioneer. Kramer Auctions do not purchase auctions, we conduct them. We do not guarantee returns. We believe this process will interfere with the integrity of the auction system. An auctioneer should never be in the position where he is tempted to bid against his customers. Therefore, you as a bidder can rest assured that you will not be bidding on equipment pre-purchased or price guaranteed by the auction company, BUT only bidding on equipment that is owned by the sellers we represent.

"Many thanks to the great job. From setup to the day of our sale everything went very smoothly. We were very impressed with how our line of machinery was set up and organized. Everyone worked very hard and at the end of sale day we were very pleased with the results. Special thanks to Eric Fazakas. We would highly recommend Kramer Auctions to anyone considering an auction."
